Thanks Joel. Lyndsey and I had a very good conversation with Joe yesterday. We hope that expedites our profile approval and we can start the process.

Good Morning:

We were supposed to receive an update on scheduling trucks?

Thanks

Regards,

Eric

Good Afternoon-

I will speak with Cory McMann, who is doing the approval for this waste. We have all of the information and I believe we have the NORM addendum. This was one of the pieces we were waiting for. I will provide an update in the morning or early afternoon.

Best regards,

Joel D. Belloni

Good Afternoon Tim, Joe and Joel:

I know Lyndsey, Frank and Janelle have been coordinating to get everything finalized for disposal. I was under the impression that after the addendum was revised under US Ecology guidance and Lyndsey presented our first load out criteria to Joe, that the scheduling of trucks would be shortly after. Is the additional time (no trucks scheduled until after Thanksgiving) due to review, availability of trucks or other reason?

Thanks

Joe, we had a conference call to coordinate transportation logistics with GES last week. Joel, our customer service Mgr, and Jim Vigrass, our transportation Mgr were on the call with me. Janelle and Frank, who was at the site, were on the call for GES.

Lyndsey, the estimated timing for initial shipments was discussed and nothing prior to Thanksgiving. A tentative date of Tuesday, Nov 29th was discussed as a best estimate.

Joel will be able to respond on the review and approval timing.

Please do not hesitate to reach out with any questions. We appreciate being part of this important project.

Hi Lyndsey. I suggest you speak to Joel Belloni about the profile questions I cc'ed him on this message). I don't suspect the review and approval times will take every long but he can provide much more accurate information.

I'm also not aware of the proposed transportation arrangements. GES can provide you with that information.

Thanks,
-JJW

Subject: Timeline

Hi Joe,

Sorry to bug you with this. I'm just trying to work out my schedule for the next two months. Do you know, by chance, how long it will take to review the package including the waste profile, disposal proposal, and the addendum? Also, once it is approved, how long after that does it take to schedule a truck to come to the site? I would like to be on-site when the disposal occurs. I figured that disposal probably won't occur until after Thanksgiving?

Thanks a bunch for all of your help!
